

## Press Release

FOR IMMEDIATE RELEASE

# Bacharach Announces Fall Promotion

## HOT DEALS ON COMBUSTION ANALYZERS

**New Kensington, PA — August 15, 2018** — [Bacharach, Inc.](http://www.bacharach.com), a leading provider of HVAC-R gas instrumentation, combustion analysis and energy management solutions announces its [fall promotion campaign](#).

Bacharach's 2018 fall heating season campaign offers customers a free multi-year subscription to Bacharach's B-Smart® pre-calibrated sensor exchange program, or a free sample conditioner. The promotional value ranges from \$199 to \$1595 depending on the unit and configuration purchased.

During the 2018 fall promotion, with the purchase of either a Monoxor® Plus, InTech®, or Insight® Plus combustion analyzer, customers will receive a free 2-year subscription to the B-Smart® Sensor Exchange Program for the CO Sensor, a \$199 value. As part of a B-Smart subscription, Bacharach ensures replacement sensors are pre-calibrated and sent to subscribers at pre-determined intervals. This keeps the cost of equipment maintenance and the cost of ownership low.

With a purchase of Bacharach's 4-gas PCA® 400 combustion analyzer, the user can decide between a free, 3-year, B-Smart® Sensor Exchange Program for any sensor, up to 3-sensors, or a free sample conditioner during the fall promotion. The sample conditioner is an accessory to the PCA® 400 combustion analyzer, that cools and removes water vapor from the stack gas sample to ensure accurate NO<sub>x</sub> and SO<sub>x</sub> readings. Customers purchasing a PCA® 400 will receive a 3-year B-Smart® Sensor Exchange Program subscription for each of their sensors purchased, including CO, NO, NO<sub>2</sub>, and SO<sub>2</sub>, each valued at \$349, and a total value up to \$1047. Alternatively, certain PCA® 400 configurations are eligible for a free sample conditioner, a \$1,595 value.

Bacharach's lineup of combustion analyzers cover a range of applications from residential to commercial and industrial facilities. Made in the USA, the PCA® 400, Insight® Plus, InTech®, and Monoxor® Plus combustion analyzers set the standard for quality, intuitive operation, rugged construction. Built-in troubleshooting software provides technicians with a quick visual for tuning furnaces and other appliances, while mobile apps enable the transfer test data from the analyzers to a mobile device for generating and sharing professional reports.

## Press Release

This offer is valid for purchases from August 15, 2018 to December 31, 2018 at all Bacharach authorized distributors with properly completed rebate information being accepted through January 31, 2018.

### About Bacharach

Bacharach is a provider of cleantech solutions for gas and refrigerant leak detection, combustion and emissions analysis instrumentation, and energy management for commercial and industrial applications. Bacharach products make the heating, ventilation, air-conditioning and refrigeration (HVAC-R) industries safer, cleaner, and more energy efficient, enabling customers to increase productivity, reduce costs, and protect lives and the environment.
